

I am a flight attendant, and have been so for 16 years. I am very serious about air travel and safety on-board. Allowing Cell phones to be used on board is a huge mistake. After 9/11 we need more regulation not less. It was the lack of security that made the hijackers able to succeed. There are all types of scenarios I can think of using cell phones. If I can so can the bad guys!
Please use the past as experience and DO NOT ALLOW CELL PHONE USE ON FLYING PLANES!!!!!! PLEEEEEEASE!!!!!!
